Seller Guidelines

Version 2025.3 - Effective 1 October 2025

These guidelines apply to every third-party seller listing products on the ShopSmart marketplace.

Listing Standards

Product titles must include brand, model and key variant (for example storage or colour). Specifications must match the manufacturer data sheet. Images must show the actual product on a white or neutral background with no watermarks or promotional text.

Dispatch and Fulfilment

Sellers must dispatch orders within 2 business days of order confirmation. Orders not dispatched within 4 business days are automatically cancelled and count against the seller's performance score.

Returns and Refunds

Sellers must accept returns that comply with the ShopSmart Return Policy and the category-specific return policies. Refunds for seller-fulfilled orders follow the ShopSmart Refund Policy timelines.

Prohibited Products

Counterfeit goods, refurbished products listed as new, prescription medicines and products without valid safety certification may not be listed.

Performance Standards

Sellers must keep the order defect rate below 1 percent and the late dispatch rate below 4 percent. Sellers above these limits may have listings suspended.
